Max. output current	400mA
Max. output power	2W

SAFETY INSTRUCTIONS

NOTE:

This flashlight contains permanent magnets please take care when flashlight is near pace makers, hearing aids, debit or credit cards and other electrical items.

OPERATION AND USE

- Make sure the LED on the flashlight is off (push all 3 buttons backward).
- To charge the flashlight unlock the handle and rotate only in a clockwise direction at the speed of 2-3 cycles per second, forcing the charging motion to a higher revolution per section may damage the unit.
- One minute of charging time will provide you with up to 20 minutes of light.
- When the light dims, turn the flashlight off and charge again for approx a minute.
- You can select the desired brightness using 1,2,3,4 or 5 LED's, pushing forward the one, two or three buttons located on the unit. The less brightness used, the longer light will be provided.
